- Non-intrusive design
- Mounts on like a wristwatch
- Fits any irrigation cart

COMPATIBLE WITH

Hose reel and
linear

Center pivot

Self-propelled

FULL FARM OVERVIEW

Complete fleet overview
Real-time and historical insight
Calendar-view
Advanced report generator

PIVOT SYSTEMS

Pivot status – monitor movement
Pivot direction – forward or reverse tracking
Speed & Points of Interest (POI) – live monitoring with location markers

ALWAYS CONNECTED

*The sensor connects over LTE-M / NB-IoT - low-power mobile networks built on 4G and supported in 5G**

- No setup, no Wi-Fi needed
- Energy-efficient network
- Ultra-low power for long battery life
- Stable connection, even in remote fields
- Built for the future of smart farming

**Network availability depends on local mobile operator coverage*

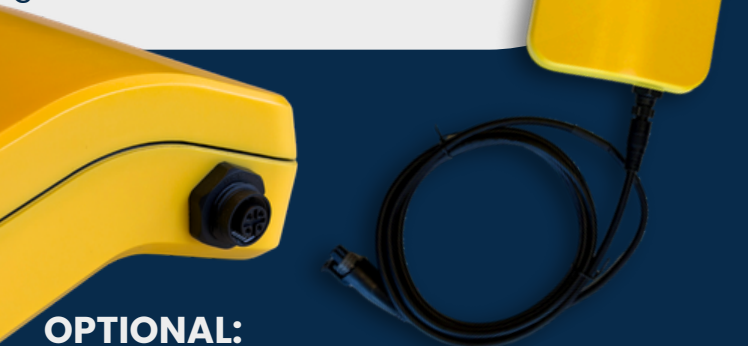

MULTIPURPOSE BY DESIGN

OFF-SEASON MODE

Use the sensor as a wireless temperature and humidity logger

Ideal for barns, storage rooms or greenhouses

OPTIONAL:

EXTERNAL PRESSURE TRANSDUCER

If precise pressure is crucial, you can order the sensor with an external pressure transducer

MADE TO LAST

- 100% Water- & dustproof
- Certified to IP67 Standard
- Battery-powered for over 6,000 hours of irrigation
- Rugged all-in-one design

This product has been awarded the official origin label of Norway based on criteria for authenticity and responsibility
